OVERVIEW

This guidebook is part of The **5 Site Digital Blueprint** brought to you by Alex Montalenti, Real Grader and Real Grader University.

ABOUT ALEX MONTALENTI

Alex is a leading technology innovator, serial entrepreneur, and coach to realtors. With more than 20 years of experience, he is responsible for the creation of multiple companies and the development of training programs for real estate professionals.

Alex focuses on social media growth, digital branding, technology solutions, reputation management, and sales growth

Son of a Romanian immigrant, Alex began developing solutions by helping his mother, now A retired real estate agent. It was 1999, the time when the internet disrupted the industry and hundreds of realtors saw themselves struggling with technology. After he saw the value in using technology, he became the founder of one of the first website and marketing companies for real estate in Long Island. Today, those companies are eRealty Media and Real Grader.

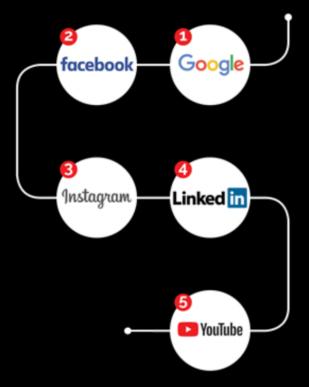

THE 5 SITE DIGITAL BLUEPRINT

ABOUT REAL GRADER AND OUR UNIVERSITY

Our mission is to help 100,000 agents reduce frustration and stress. This will enable them to expand their digital footprint and their real estate business. We are here to help you get the information and services to grow your business and enrich the quality of your life. With access to our education and training on digital marketing, you will learn to leverage your time and delegate the rest to us. Our training and our services have helped agents to multiply their business in less than one year with simple yet crucial solutions we developed.

After COVID-19, RealGrader made all their members-only training available freely to all realtors and this has allowed hundreds to grow in social media a reported 600%! And the best way for any new or experienced realtor to begin to see similar results is to enroll in the 5 Site Optimization Plan. This plan is the foundation yet it works in harmony with the InstaCard, a way to share your entire portfolio of online marketing with a single click. Contact us to learn more at realgrader.com

ARE YOU SET UP PROPERLY ON YOUTUBE?

The National Association of Realtors said in 2018 that 48% of realtors cite that keeping up with technology is a struggle for their firm despite the fact that the majority of realtors today have an online presence with websites and communication channels in the digital arena. Real estate agents still struggle with this every year.

They might not have enough time to complete all the tech-related improvements, they might have attempted it and given up, or the new updates may be overly complicated.

HOW DO YOU MANAGE ALL OF THIS? WHILE DOING THE BUSINESS OF REAL ESTATE.

The guides for all of these platforms are made available to you through our package deal on <u>RealGrader.com</u> under the "Digital Optimization" catalog shown on the right used to skyrocket your digital reputation. These guidebooks are step by step guidelines for you to follow for each platform shown on the left. However, if you want experts to do the work for you, contact our team or visit our website Real Grader for more info!

Now let's get into how to optimize your presence on a platform, like Youtube!

WHY DO YOU NEED YOUTUBE?

If you don't have a YouTube channel, you might not lose business, but we've has worked with clients who have made new sales after uploading previous listings as videos to their channel. Even though another agency had already offered the listing, they managed to close the deal on that particular house!

If you don't have a channel, that is one of the things you are missing out on.

Here is how it ought to appear:

Olga Zakinova, one of our clients, has posted the exact identical headshot and cover photo for her business across all social media platforms. She also has new videos.

When you Google Olga, you can also find her YouTube content. Anyone looking up Olga now has direct access to her listings.

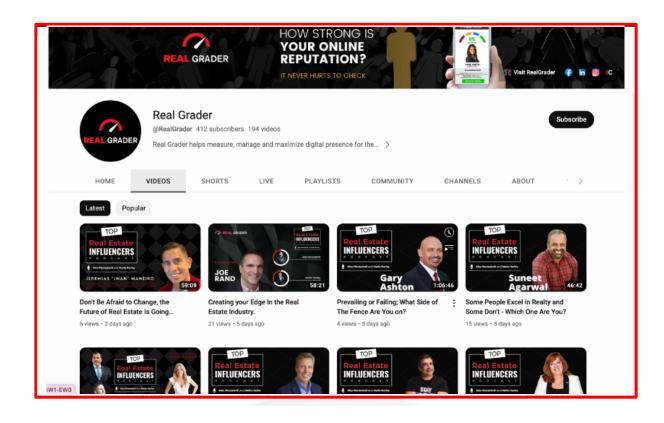

This is how our company, Real Grader appears on Youtube:

If you've noticed, the thumbnails and cover images for our videos are both interesting and alluring. You should choose a single thumbnail design for a more unified appearance in order to make your channel uniform, professional-looking, and branded.

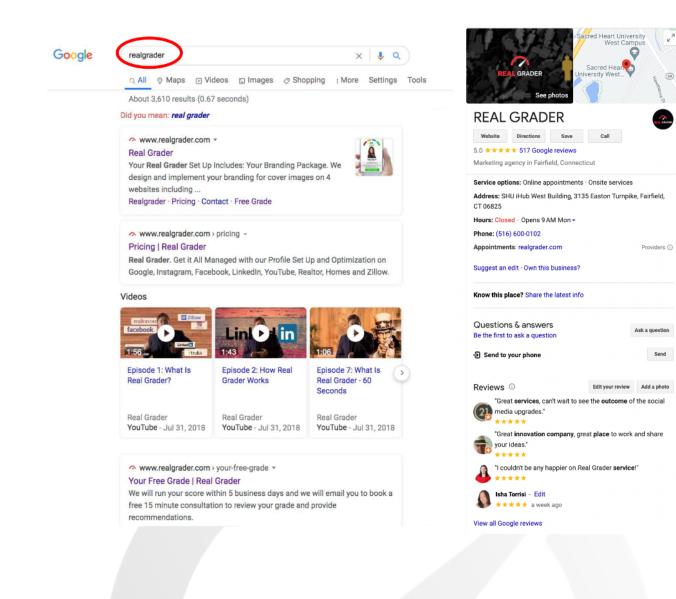

For some of you who are new, you should prioritize uploading videos right away and worry about the cover thumbnails afterwards. You can start with videos of your property or yourself speaking. It's okay if you're still reserved because it's always a learning process.

Our videos also show up on Google:

This is a non-real estate client of ours who used our coaching program and went from having no subscribers to having thousands in only two years:

Because it can now monetize for YouTube advertising, this channel even makes money paying for its promotion. This shows how you can optimize your online presence even if you are not a realtor.

He has hashtags, an optimized title, a landing page url, a description of what you will learn in the video, and helpful time stamps (advanced) to find certain information within the video.

He also included valuable resource links, his social links, and disclaimers (if applicable).

This may be modified to suit the requirements of your channel, and you can add your own landing page, hashtags, and description, as well as time stamps (advanced) for simple navigation.

If you do it this way and there are lots of watchers, you might even get leads.

HOW TO MAKE A YOUTUBE CHANNEL

You must have a Gmail account, which I assume everyone does by this point. There is no justification because it is free and accessible everywhere. There is no entry hurdle to this because you can register a YouTube account for free:

As you can see in the image above, there is a feature to customize your video with a brand watermark on all of your videos, this could bring more awareness to your brand to your viewers.

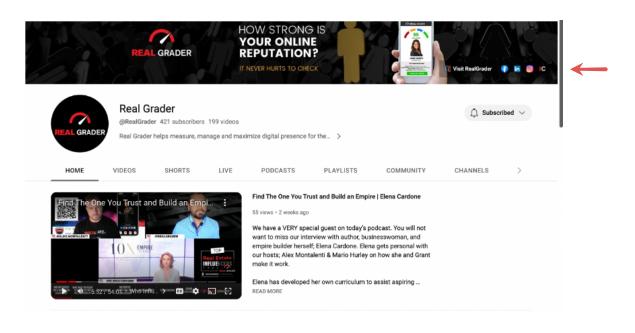

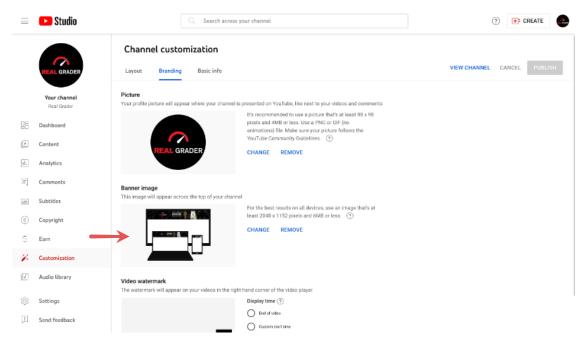

ADD CHANNEL ART

In order to customize your channel art (the same cover in Facebook) you can click the banner, which is found above your channel. Then, this will lead you to the customize channel feature in Youtube Studio, where you can change the banner, profile picture, etc.

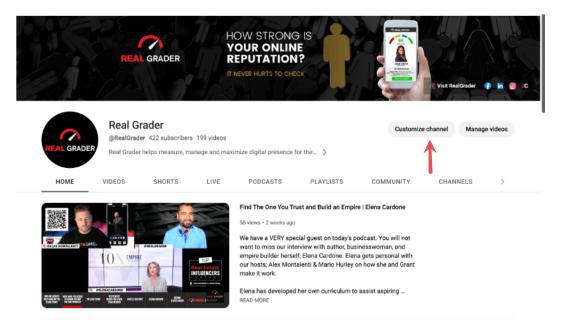

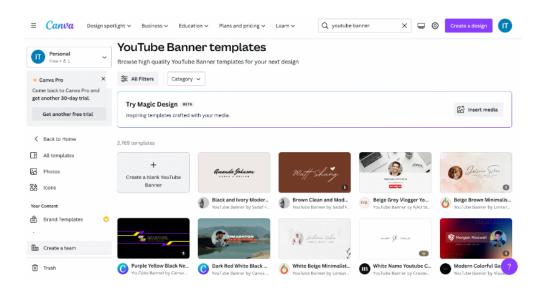

Another way to enter this customizable space for your channel is to click the "Customize channel" button on the right of your profile on your channel page, then click the "branding" tab. This button. will lead you to the same Youtube studio page to customize your channel. An image is shown below to guide you.

For customizing channel art, we highly recommend using Canva. You can use their mobile app or go to their desktop browser website. It's always easier to edit things on your computer since you will have more space to work on. If you search "youtube banner" you can find numerous templates to create your own.

CUSTOMIZE CHANNEL

To customize the layout of your channel, you will need to press that same "customize channel" and you will be brought to the image below, under the "layout" tab.
