Calumet Outagamie Winnebago Long-Term Recovery Committee

FLOOD AND TORNADO RECOVERY

One coordinated path to recovery for families and communities still rebuilding.

Who we are

The Long-Term Recovery Committee is a network of faith-based, non-profit, governmental, business, and other volunteer organizations and agencies working together to provide a coordinated recovery effort after disasters. Its purpose is to manage long-term recovery for residents and to provide additional assistance to people affected by the disaster who do not have adequate personal resources to meet their needs. By bringing partners together, the committee can help people who need it most and ensure resources are used wisely.

How we do it

Various subcommittees carry out this work through matching unmet needs with available resources and support complex individual cases through case management. Also subcommittees work to garner financial support for unmet needs, organize volunteer organizations for relief work, and offer emotional and spiritual care to help the community kindle hope.

Need Help After the Disaster?
We're here to help.
Tell us what you need.
We will work to help connect you with local resources.
